Saengerfest Athletic Association Have a Benefit-No More Pugilism in Ohio.

CINCINNATI, Feb. 15 .- The Jeffries-Ruhlin contest, scheduled for to-night, was declared off judicially yesterday and officially to-day. Previous to the application for a permanent injunction, and when the general opposition to the contest included Governor Nash and the full power of the State, the only thing on which the promoters depended was the permit that had all but Sampson and Schley be confirmed, been issued by Mayor Fleischmann for the proposed contest to-night. That permit expired at midnight, and its renewal is not | given the position. Sons of Veterans-William B. Armstrong, day indorsed the entry of the decree forney, Kansas; Aaron I. This was due to the fact that Brady had borne all the expenses except those at the training quarters of Ruhlin. Brady has had Ed G. Cooke here with the promoters for months. He also secured the tickets and paid those in charge of the ticket office since Jan. 23 and such other expenses as were necessary. Brady was the manager for the Saenferfest Athletic Association as well as for Jeffries Immediately after he received the forfeit money and settled in full with the Saengerfest Athletic Association Manager Brady issued a card of thanks, and stating that his company would give a performance for the benefit of the athletic association. Tonight the Saengerfest Athletic Association formally accepted the proposition of Manager Brady, and announced that there would be an auction sale of seats for the benefit performance in the Chamber of Commerce early next week.

Manager Brady said to-day that he would not accept any propositions for Jeffries to engage in any contests in the future unless there was a legal as well as a financial guarantee. "We will go ahead with our action of the United States Supreme Court | theatrical venture for the present," said Brady, "and will pay no attention to any propositions for Jeffries to meet Ruhlin or any other man. Distributive Business Is Very Heavy-Strong Iron and Steel Situation-Textiles Continue Weak.

NEW YORK, Feb. 15 .- R. G. Dun & Co.'s Weekly Review of Trade to-morrow will say: Business continues of good volume in nearly all parts of the country, and reports from the West and Southwest of satisfactory distribution of merchandise b tobbers begin to have a familiar sound Heavy orders come from agents on the road. There is no important change in prices in any department of manufactured understanding that these two officers be goods. Some staples rise while others decline, but the longer the situation remains as at present the surer the business world for the demand for merchandise for prompt consumption does not decrease. Some progress has been made in the direction of settlement of labor difficulties in the far West and the temper of soft coal miners is more amicable, while there is little concern among steel interests over the sensational stories of organization at the mills to enforce demands for higher wages.

At some points there are evidences of an inclination to delay operations in iron and steel until something definite is known regarding the proposed combination, but this applies only to small undertakings, which are insignificant in comparison with the urgent dealings that cannot be postponed. Purchasers find difficulty in securing even approximate dates for delivery of goods in many products, and mills are so far behind orders, as a rule, that no new contracts are sought. Structural material and railway supplies are in greatest request, numerous heavy orders being accepted this week at full prices. There is no inclination to shade quotations of finished forms, and pig iron at Pittsburg again advanced. No sign of weakness is apparent in any entire county. The town now distributes | department of the boot and shoe industry. Some manufacturers have booked orders the county. It is now proposed to build a that will insure running on full time well into May, and it is an exceptional case where jobbers can secure March delivery, even from the smaller shops. Salesmen are returning from the West and South with most cheerful reports, and, while lo-cal jobbing is less brisk than last week, there is no complaint. Forwardings from Boston were 87,487 cases, against 83,255 in the previous week.

News regarding the textile manufacture

is less encouraging, despite the fact that sales of wool at the three chief Eastern markets rose to 6,372,600 pounds, far exceeding all recent records, and showing a gain of 960,000 pounds over the same week last year. It was at this time in 1900 that the movement commenced to fall off and the depression began which has continued ever since. Cotton fabrics continue quiet and domestic mills are not fully occupied. Liverpool cables have given no support, while Manchester is securing raw cotton from India in unusually large quantities. These influences caused a further decline in middling uplands, taking the price to the low-est point in three months. Exports in Jan-uary were valued at \$35,837,934, against \$27,-089,251 in 1900, but the increase was entirely due to an advance of 2.2 cents a pound in the price, as the quantity was 1,842 bales

Wheat was advanced this week by ports of receipts at the mills unfit for grinding. Flour output at Minneapolis is much smaller than a year ago, and a fur-ther decrease is expected. Atlantic ex-ports of wheat, including flour, for the week were 2,478,521 bushels, against 1,529,533 bushels last year.

Failures for the week numbered 257 in the United States, against 218 last year.

BRADSTREET ON TRADE.

Conditions Are Very Good and the Outlook Is Better.

NEW YORK, Feb. 15.-Bradstreet's to morrow will say: "Trade advices are rather more cheerful. This applies as much to current retail business, which has been enlarged by wintry weather, as it does to opening spring trade, which finds stimulation in the general confidence felt as to the outlook for the coming year. Prices show exceptional strength, all things considered, the one weak spot being raw cotton, which shares the rather unsatisfactory tone manifested by the cotton goods and yarn markets. Foreign demand for breadstuffs has been rather better, and this is reflected in heavy exports, particularly of corn. Spe-cially cheerful reports from the shoe and leather, the lumber and the iron trades, the strength of prices of the latter having been increased by the talk of pending consolidawill soon issue a milder proclamation, I tions, although the volume of business is restricted from the same cause. Failures are smaller than of late, and current railroad earnings show large gains over the good returns of last year. Boots and shoes are in rather better demand at all markets. Retail distribution of these and of rubber goods has been helped by current weather conditions. Good

> A fair volume of trade is doing at all leading iron markets and the advances noted in these columns last week are firmly held. Bessemer pig is still selling at \$13.25 at valley furnaces, equivalent to \$14 at Pittsburg, and sales of 10,000 tons are reported. Immediate deliveries of steel billets still cost 50 cents to \$1 more than the pool price, \$19.75. Chicago reports manufacturers' price lists withdrawn pending the consolidation, but that billets are \$2 a ton higher on sales of 20,000 tons. Structural material is active, and the largest consumption since 1895 is looked for. Wheat (including flour) shipments for the week aggregate 4,814,878 bushels, against
